

Global Leadership: Managing Diversity in a Multicultural Workplace (MDC)

Course Overview and Syllabus

Overview

How do you develop leadership skills that transcend cultural, religious, educational, gender and economic borders? How do you work with people from all over the world in one team or company, treat them all with respect and still inspire them to effective co-operative action towards a common purpose?

This is the goal of AHA's Global Leadership: Managing Diversity in a Multicultural Workplace (MDC) course. MDC combines an understanding of culture with the development of key management skills so that a manager or prospective manager develops a range of core skills and values that can be applied in many different situations.

The challenges that you face today are very different to the challenges of the past. The world is becoming smaller through travel and mass communications. Cultural, economic, educational and gender borders are dissolving and more companies find themselves engaged in business with other countries or influenced by events from another part of the world.

The workforce is no longer just local, and executives and managers often move from position to position not only in their own country but between different countries. How you deal with such a shifting landscape will determine your success in the future.

Ultimately, it is AHA's hope that the lessons learned in this course will lay a solid foundation for you to become a Global Leader who appreciates and works effectively with people from all backgrounds, is valued by the industry and who makes a positive difference in the world.

There are 10 MDC modules. Each module will contain the following activities which are explained in more detail below:

- ✓ Module Overview
- ✓ MDC Seminar(s)
