Seminar Descriptions

1. Spirit of Hospitality

Increasing competition within the hospitality industry has also increased the importance of the role guest service excellence plays in the success of any hospitality venue. This seminar will help you develop the kind of positive, caring guest service attitude that will enable you to shine! You will learn to recognize what constitutes and contributes to guest satisfaction and how exceeding these standards directly, correlate to the success of your future position.

2. Choose Your Attitude

It is not your aptitude but your attitude that will determine your success in your career. A positive attitude is the essence of providing exceptional guest service, which is why the most successful hospitality organizations hire for attitude and train for aptitude. Life produces extraordinary rewards for those who give in extraordinary ways. This seminar will show you how to soar to new heights with an “attitude of gratitude” that sees life challenges as opportunities.

3. Character Building

Good character does not just happen. We develop this, each and every day, by the choices we make in both our personal and professional lives. After completing this seminar, you will appreciate the importance of developing positive character traits, identify desirable traits and be able to explain their benefit in the workplace. You will also be able to recognize personality and behavior flaws that cause difficulties on the job.

4. Communication

To effectively communicate, it is important to make certain that the people you are talking to clearly understand both your words and your actions. The most important principle in communication is to learn how to hear what is not being said. This seminar will help you learn how to successfully “speak the same language” with people of diverse backgrounds.

5. Cooperation

Without cooperation, the hospitality industry will not survive, much less thrive. Ability to cooperate with co-workers is key to individual success, team success, and success of the organization. This seminar reviews the professional interactions and cooperation skills.

6. Attendance and Time Management

Time is always a scarce and precious resource for everyone. Those who manage their time wisely lead well-rounded lives, accomplish more personally, as well as professionally, experience less stress and feel better about themselves. This seminar helps you develop strategies for delegating tasks, prioritizing, and planning to increase your efficiency.

7. Appearance and Etiquette

Studies have shown that thirty seconds is all it takes for someone meeting you to form an entire list of impressions about your character and your abilities. In this seminar we will discuss the importance of appearance, grooming, hygiene and etiquette in the workplace. Once we learn to look through the eyes of the guest, we will begin to realize that our success depends not only in acting, but in looking the part as well.

8. Embrace Change and Fall Up!

Failure is not the falling down, but the staying down. In other words, if you stay down, you quit- you fail!

Things do not always go our way; you are going to have disappointments in your work and in your personal life. But the question that separates the best from the rest is how you are going to deal with negativity and embrace the change. This seminar will discuss how you can fall up and embrace the change around you.

9. Elements of Service and Customer Magic

3 C's of Customer Magic: Connect, Contribute and Conclude. This seminar will discuss how you can own and take charge of your customer interactions and deliver the "a ha!" with magic! We will discuss commitment, imagination, creativity and how you can develop customer magic skills by having an open mind and consistency.

10. Teamwork- Wear your "a ha!" Onstage!

The ultimate goal of any organization is to achieve overall effectiveness. In other words, the sum should be greater than its parts! Of course, we all want to succeed as individuals, but our primary focus should always be on the success of the organization as a whole. This requires teamwork. This seminar will discuss how you and your team can work together to display Amazing Hospitality Attitudes while onstage at work.

11. Understanding Culture

This seminar defines key terms, processes, and concepts to help you understand the general meaning of culture and how it works in our world. The central focus of this session is the relationship between "Culture in the Abstract" and "Culture in the Flesh." It is important to understand that the beliefs and behaviors of a particular culture are not arbitrary, but are part of that culture's rich history and heritage.

12. Breaking Down Stereotypes

This seminar focuses on the important keys to building a cross-cultural community, specifically the need for breaking down harmful stereotypes. Breaking down stereotypes requires that individuals, societies, and government institutions make a commitment to gaining new insights and perspectives through compassion, honesty, self-control, compromise and participation, with the common good in mind.

13. Effective Cross Cultural Communication

This seminar explains the challenges of communicating in a multi cultural workplace and introduces you to issues that may occur as a result of miscommunication. It highlights the skills needed for effective cross cultural communication and the strategies that you may implement to increase your ability to communicate in a multi- cultural setting.

14. Celebrating Diversity

This seminar offers you the opportunity to learn how to celebrate cultural diversity with your peers, employees or guest/clientele within the workplace. It introduces you to workplace diversity, explains the characteristics and challenges of a multi cultural workplace, and presents leadership strategies for you to practice and implement.
